Honda Nighthawks

When released in 1984, the Nighthawk was considered by some as a hot rod bike with an aggressive look and a design centered on the engine. Honda had established themselves as a specialist in inline four engines in the 70s, and once again they proved successful.

an interesting history. In Europe and Canada the Nighthawk S was a 750. In the 80s in an effort to help Harley Davidson the government placed a tarriff on bikes 701cc and over. So Honda lessened the stroke to make it a a 700cc bike. The Nighthawk S was the hot rod of motorcycles and has a really cool classic stance.
