You should have power on 1 terminal when moving the switch in either a up or a down position and on the other terminal also when moving it either up or ...

my window in my 2003 expedition will not go up why ...

Ford vehicles use electric motors to turn the window regulator in models equipped with power windows. These motors can wear out, the fuses can blow, or other electrical problems could occur that can prevent the window from moving properly. Troubleshooting most Ford electric windows will take the average weekend mechanic about an hour.
