transnational constitutionalism. It shows the constitution appearing in a new light: no longer as an essential factor of unity and stabilisation but as a potential defence of pluralism and innovation. The first part of the book is devoted to the analysis of the concept of constitution, highlighting the elements that can contribute from a socio-legal perspective, to clarifying the principle meanings attributed to the constitution.

The study goes on to analyse some concrete aspects of the functioning of constitutions in contemporary society. In applying Luhmann ' s General Systems Theory to a comparative analysis of the concept of constitution, the work contributes to a better understanding of this traditional concept in both its institutionalised and functional aspects.

Defining the constitution ' s contents and functions both at the conceptual level and by taking empirical issues of particular

While forensic analysis has proven to be a valuable investigative tool in the field of computer security, utilizing anti-forensic technology makes it possible to maintain a covert operational foothold for extended periods, even in a high-security environment. Adopting an approach that favors full disclosure, the updated Second Edition of *The Rootkit Arsenal* presents the most accessible, timely, and complete coverage of forensic countermeasures.

- Evade post-mortem analysis
- Frustrate attempts to reverse engineer your command & control modules
- Defeat live incident response
- Undermine the process of memory analysis
- Modify subsystem internals to feed misinformation to the outside
- Entrench your code in fortified regions of execution
- Design and implement covert channels
- Unearth new avenues of attack
