answer to arrive at a designation of the alteration as major or minor.

Installation in type-certificated aircraft - VAL Avionics LTD.

You will not be able to get a Form 1 as the MGL is not certified (TSO'd) and is intended for experimental aircraft. If you have very loud engine an external high noise intercom would be best with any radio. The MGL is one piece where the Trig has face and a remote box. They both are 6 watts output, fit into a 2-1/4" space and have 25/8.33Khz spacing.
