One of the most troubling decisions is to design your opening repertoire. The idea of having a perfect set of weapons against each of the opponent's possible choices gives us peace of mind. However, there is a huge gap between how we picture this in our head and how it actually works in practice.

A Guide to Choosing Your Opening Repertoire at ...

The repertoire is based on solid foundations: White opens with 1.d4 and 2.e4, a scheme followed by Kasparov, Karpov and Alekhine, among others. An aggressive style is presented and well-known players' moves from famous tournaments are cited throughout as examples.

So, if you want to build an opening repertoire, or if you want to change yours, you should... 1) Work out what kind of game you want? Sharp, slow, etc. 2) Investigate some openings and find ones that suit this style. 3) Work out what your base is going to be. What is your first move? What will you play against each of Black's main openings?

Picking The Correct Opening Repertoire - Chess.com

In this book, prolific chess author Cyrus Lakdawala recommends a repertoire for White players who like to open 1.e4. The repertoire is based around two main themes: The suggested variations for White are ones that rely far more on a generic understanding of strategic ideas rather than the memorisation of reams of opening theory.

This is a very complete opening repertoire with pretty deep analysis, especially for one that covers both the White and Black side. Nothing drives me crazier than a 'repertoire' book that does not have a complete repertoire. For instance, Keene's ORFTAP leaves out all openings with d4 that don't followup with e4 - a major oversight.

Above all, creating a repertoire does not absolve you from playing chess in the opening. You have to consider the position on the board and understand what the pieces are doing and where the threats and opportunities are (because at some point, you will break away from theory or fail to remember a move, in which case you will need to evaluate and calculate).

Opening Repertoire: The Sveshnikov by Cyrus Lakdawala The Sveshnikov Variation of the Sicilian Defence provides a battleground for one of the key conflicts in chess: structure versus activity. Black voluntarily accepts a weak pawn formation but in return obtains easy development and excellent piece activity.
