A comprehensive guide to the inner psychology revealed by the hand • Details how to interpret the entire hand—the shape of the palm and fingers, mounts, lines, fingerprints, flexibility, nails, and skin texture • Reveals the personality archetypes, strengths, and weaknesses connected with each of the seven mounts and how the rest of the hand modifies these traits • Explains how lines change and the decisive influence of the person's own mind in healing defects found on the lines Palmistry is a science and a universal language. The hand tells a story about your talents, relationships, health, and how you feel about yourself. It reveals periods of ease or challenge in your life, and it speaks about your weaknesses and the traits you need to develop. As you change, so do your hands, reflecting the progress you have made. In this comprehensive guide to hand reading, based on Ellen Goldberg's 40 years of teaching palmistry and the Western Mystery tradition, the authors make the powerful insights of the hand accessible in an inviting and user-friendly manner. The book presents the character traits and personality archetypes associated with each of the seven mounts of the palm and shows how to determine which are most influential in the nature of the individual. The mount archetypes reveal the lifestyle, love,sex, and marriage preferences; the best career choices; and the unique strengths and weaknesses for each person. The book also examines other factors that enhance the qualities revealed by the mount types, including the flexibility of the hand, texture of the skin, and the shapes of the fingers, fingertips, and nails. The meaning of each major and minor line is described in detail as well as the influence the person's own mind has in healing defects and obstacles found on their lines. The authors also provide accurate timing guides for each line, making it possible to locate specific events and to see how your lines change over time. Presenting the hand as a guide to self-fulfillment, The Art and Science of Hand Reading incorporates correspondences to other mystical sciences such as astrology, Kabbalah, the Hermetic teachings, and archetypal psychology. It also includes practical examples and more than 600 illustrations to show how to integrate the meanings of each part of the hand to form a complete picture of your inner psychology and your ever-changing destiny.

Looks at the history of palmistry, describes the various lines that are found on the hand and how they are interpreted, and tells what hand analysis is supposed to reveal about compatibility, health, occupations, money, travel, and retirement

Looks at the history of palmistry, describes the various lines that are found on the hand and how they are interpreted, and tells what hand analysis is supposed to reveal about compatibility, health, occupations, money, travel, and retirement

Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

1900 a practical treatise on the art commonly called palmistry. with 800 illustrations from life. Some of the Contents: Basis of Our Work; Plan of Creation; Mount Types; Life Current; General Attributes of the Lines; Pose & Carriage of the Hands,;

Provides step-by-step instructions for conducting palm readings and details how to make interpretations about a subject's character during these sessions.

It was the Chinese who really developed the technique of reading palms to analyze people, and turned it into a science. This simple and practical illustrated handbook distills years of valuable information on the subject, enabling anyone to use this powerful tool to uncover details about a person's character, health, and future. Here are more than 200 extremely detailed readings, based on the five main lines and eight mounts defined on the palm; each interpretation has its own explanation and illustration. Find out how to read different types of hands, from the soft and delicate to the strong and compact; how to decipher fingerprints; and what each line and mount signifies. Figure by figure, learn what configurations of lines and bumps on the palm reveal selfishness, maturity, love and jealousy, good intuition in romance, artistic talents, a difficult old age, an impending accident, and much more.

Every hand is the map of a life, revealing the past and the potential of the future. Both a science and an art, hand analysis can provide a key to assessing accurately an individual's physical and psychological nature. Mir Bashir's classic work is renowned for its comprehensive exploration of the art of hand reading. The text carefully explores and explains the two methods of analysis: cheirognomy and cheiromancy. Cheirognomy is the study of the shape of the hand, finger formations, nails, skin texture and the eight mounts of the hand. Cheiromancy is the interpretation of the lines and markings engraved on the palm's surface. Mir Bashir considers the seven major lines, as well as treating in detail the wealth of minor and unusual signs and marks. This new edition of The Art of Hand Analysis contains over 400 illustrations, providing the reader with a visual encyclopaedia to accompany this authoritative text. By combining careful analysis with experience and intuition, Mir Bashir demonstrates that divination through hand reading is neither superstition nor game, but a path to self-discovery and a wonderful way to satisfy age-old curiosity.
