The brand new Centro is a full-featured Palm Smartphone designed to target the consumer and youth digital lifestyle market. Palm Centro gives the user voice, text, IM, email and web, in one, small, convenient package. The Centro has a color touchscreen and a full keyboard, so users can say goodbye to those tricky keys on their cell phone. Look up maps and directions on Google Maps, shoot photos and video, meet up with friends on MySpace, check out photos on Flickr, this new smartphone can do almost anything, and this unique, full-color book documents it all with at-a-glance tips, tutorials, and techniques. This pocket-sized and portable guide comes jam-packed with new things you can do on your Centro that are not disclosed in the PDF manuals. Master one topic quickly and easily and then move on to the next because everything is a one-to-five minute tip or technique. Now You Know Centro is meant to be fast and simple, allowing you to practice on your handheld while you read. You'll learn about the wireless capabilities, e-mail, media and streaming media, accessories, productivity, and more. In minutes, you can watch your skills improve and use what you learn immediately. Now You Know Centro is designed for immediate gratification, not for hour-long reads, the exact way you use your smartphone.

PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology.

Plunkett's InfoTech Industry Almanac presents a complete analysis of the technology business, including the convergence of hardware, software, entertainment and telecommunications. This market research tool includes our analysis of the major trends affecting the industry, from the soaring need for memory, to supercomputing, open source systems such as Linux, cloud computing and the role of nanotechnology in computers. In addition, we provide major statistical tables covering the industry, from computer sector revenues to broadband subscribers to semiconductor industry production. No other source provides this book's easy-to-understand comparisons of growth, expenditures, technologies, imports/exports, corporations, research and other vital subjects. The corporate profile section provides in-depth, one-page profiles on each of the top 500 InfoTech companies. We have used our massive databases to provide you with unique, objective analysis of the largest and most exciting companies in: Computer Hardware, Computer Software, Internet Services, E-Commerce, Networking, Semiconductors, Memory, Storage, Information Management and Data Processing. We've been working harder than ever to gather data on all the latest trends in information technology. Our research effort includes an exhaustive study of new technologies and discussions with experts at dozens of innovative tech companies. Purchasers of the printed book or PDF version may receive a free CD-ROM database of the corporate profiles, enabling export of vital corporate data for mail merge and other uses.

The mobile Web is still evolving, and this is an exciting time of early development, but some hurdles still need to be overcome. This Library Technology Reports examines the various components of the mobile web and explores how they can and have been utilized by librarians. In the Report, author and library-technology blogger Ellyssa Kroski outlines the components of the mobile Web the users, devices, the operating systems, the services, the content and illuminates the research tracking how users currently engage with information on the World Wide Web via their mobile devices. Kroski also details several library mobile initiatives and provides a "how to" chapter for libraries interested in developing a mobile experience for their users.

The electronic age is bringing sweeping changes to entertainment and media of all kinds, including publishing, broadcasting and film. Multimedia, the Internet and other digital media outlets for entertainment and information are being refined at a rapid rate. Media giants are merging and making big acquisitions. This book covers these exciting developments and provides profiles on hundreds of leading firms in film, radio, television, cable, new media, and publishing of all types including books, magazines and newspapers. It contains thousands of contacts for business and industry leaders, industry associations, Internet sites and other resources. You'll get in-depth profiles of nearly 400 of the world's top Entertainment & Media firms: our own unique list of companies that are the leaders in this field. Here you'll find complete profiles of the hot companies that are making news today, the largest, most successful corporations in all facets of the Entertainment and Media Business, from broadcasters to film production companies, casino operators to theme park companies, publishers of books and magazines to video game designers, and much more. Our corporate profiles include executive contacts, growth plans, financial records, address, phone, fax and much more. This innovative book offers unique information, all indexed and cross-indexed more for each firm! Our industry analysis section provides an exceptional discussion of business and market trends. The book includes statistical tables covering revenues for several industry sectors. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key data.

"The style manual was developed originally as a printer's stylebook to standardize word and type treatment, and it remains so today. Through successive editions, the manual has come to be widely recognized by writers and editors both within and outside the Federal Government as one of the most useful resources in the editorial process. In the 21st century, writers and editors are using the manual in the preparation of informational content of Government publications that appear in digital formats."--Provided by publisher.
