The Dodge 225 slant six engine was one of the most popular engines every produced by Chrysler. The 225 was produced from 1960 until 1983 and was unique compared to other engines because the bore was much smaller than the stroke. This allowed the engine to produce a very large amount of torque which caused it to spread far beyond the use of the ...

After the 1960 Hyper-Paks, though, the slant six performance story was pretty much over, at least as far as stock cars went. They were available only with single-barrel carburetors until the 1977 Super Six, which made the engines far more responsive, but even those were no match for the smallest Chrysler V8s.
