Cities in the Sky. When ranking the world's highest cities, we specifically looked at major urban centers with a population of one million or more inhabitants, with an elevation "floor" of 1,000m. Though you might expect less important cities to make the rankings, 22 out of the 50 highest cities are actually national capitals.

Infographic: The 50 Highest Cities in the World
Cities are not only home to around half of the global population but also major centers of economic activity and innovation. Yet, so far there has been no consensus of what a city really is. Substantial differences in the way cities, metropolitan, urban, and rural areas are defined across countries hinder robust international comparisons and an

accurate monitoring of SDGs.
