~~Fred Frog is a fun character who can say and read words only in pure sounds. This beanie toy can be used flexibly as part of the Read Write Inc. Phonics programme to help introduce children to letters, sounds and words in a fun, dynamic and fast-paced way. Read Write Inc. is the leading phonics teaching programme in UK primary schools. It uses ongoing assessment, clear progression, lots of practice, and a lively and fun approach to engage and motivate children from the start. It gets children reading and writing - fast!~~

~~Updated for 2019. Practice the Theory Test questions with this easy to use theory test book. This book contains mock multiple choice questions to help prepare for the real car driving theory test, along with the answers. The best way to prepare and ensure that you pass the official theory test first time is to practice the questions until you get every one right.The book includes questions from all 14 topics of the theory test, which are based off the Highway Code. Each question is multiple choice, meaning there is only one correct answer out of four possible choices. An effective way to use this book is to highlight each of your answers as you go along, and then check them at the end.~~

~~This complete self-study course on coding combines content, practice, and self-assessment into one online learning tool that the learner can follow at his or her own pace. The online program assumes the role of instructor, guiding individuals through the material and directing them when to read relevant sections from the text, checking their comprehension along the way, and providing feedback and encouragement. Users follow the program and learn at their own pace, working through chapter "lesson lectures" and reading assigned sections of the text as they progress. Interactive exercises, questions, and activities allow users to check their comprehension and learn from immediate feedback. Illustrations clarify concepts and familiarize students with the clinical procedures they are learning to code. Chapter exams are scored and incorporated in a grade book, which users can view to evaluate their progress. A series of approximately 18 SlideShows with audio narration explain and demonstrate clinical procedures. Hypertext links incorporated into the lesson lectures open pop-up boxes with further explanations and/or definitions of concepts and terms. Links to relevant web sites provide additional resources to enhance learning or stimulate discussion within a cohort group. An extensive glossary of approximately 650 terms provides correct definition for key terms throughout the course. All content has been updated to current industry standards; for use with Step-by-Step Medical Coding, 5th Edition ensuring that students learn from the most up-to-date material available. Each online chapter includes engaging "lesson lectures" by the author, guiding the learner through the online and text content. Interspersed self-comprehension questions, learning activities, and lesson quizzes throughout the online content allow learners to check their comprehension and learn from feedback. End-of-chapter review and self-assessment exercises include a specially created case-based coding activity, as well as matching, fill-in-the-blank, and multiple choice. Answers to the textbook exercises allow students to check their work on the exercises printed in the text against the answers posted within the course.~~
