Nowsubtract: 2S−S−3+24576 24573. Since 2S−S S, we have our answer. To better see what happened in the above example, try writing it this way: S3+ 6+12+24+ ···+12288 − 2S6+12+24+ ···+12288 +24576 −S3+ 0+0+0+ ···+0 −24576 Then divide both sides by −1 and we have the same result forS.

*Discrete*
Past exam papers: Discrete Mathematics. Solution notes are available for many past questions. They were produced by question setters, primarily for the benefit of the examiners. These are not model answers: there may be many other good ways of answering a given exam question! The solution notes for the most recent two year's worth of examinations are held back by the department and only made available to supervisors and other teaching staff (marked with □□).
