This video describes how to extract DNA from your cheek cells using household chemicals.

~~DNA Extraction from Cheek~~

Download Ebook Dna Extraction Lab Cheek Cells ~~Cells YouTube~~

DNA extraction is a process of purification of DNA from sample using a combination of physical and chemical methods. The first isolation of DNA was done in 1869 by Friedrich Miescher.

Download Ebook Dna Extraction Lab Cheek Cells

Currently, it is a routine procedure in molecular biology or forensic science. DNA extraction is typically the first step in a longer laboratory process.
