The purpose of this book is to provide hands-on guidelines for using electronic communication tools as part of the auditing process. The pros and cons of conducting e-audits and their consequences will be reviewed. There are situations when e-auditing techniques are more efficient, and other times they may be less efficient and even lead to questionable audit report conclusions. In this book we provide proven techniques for conducting remote audits (eAudits) and explore eAuditing practices to help organizations make informed decisions regarding their use. A ten point eAudit program implementation checklist is included with the book. Combined, the two authors have over 20 years[] experience conducting remote audits and using virtual communication technologies.

Ten Strategies of a World-Class Cyber Security Operations Center conveys MITRE's accumulated expertise on enterprise-grade computer network defense. It covers ten key qualities of leading Cyber Security Operations Centers (CSOCs), ranging from their structure and organization, to processes that best enable smooth operations, to approaches that extract maximum value from key CSOC technology investments. This book offers perspective and context for key decision points in structuring a CSOC, such as what capabilities to offer, how to architect large-scale data collection and analysis, and how to prepare the CSOC team for agile, threat-based response. If you manage, work in, or are standing up a CSOC, this book is for you. It is also available on MITRE's website, [www.mitre.org](#).

Experts in public relations, marketing, and communications have created the most comprehensive textbook specifically for Canadian students and instructors. Logically organized to lead students from principles to their application—and generously supplemented with examples and case studies—the book features chapters on theory, history, law, ethics, research methods, planning, writing, marketing, advertising, media, and government relations, as well as digital, internal, and crisis communications. Chapters open with learning objectives and conclude with lists of key terms, review and discussion questions, activities, and recommended resources. Fundamentals of Public Relations and Marketing Communications in Canada will be essential in post-secondary classes and will serve as a valuable reference for established professionals and international communicators working in Canada.
