This work maintains the approach of the US text, Principles of Economics by Case and Fair, but with the main focus on Europe. This is reflected in the use of the open economy approach, the use of the Euro as the standard currency, as well as providing numerous European examples and applications. Maths Boxes enable the lecturer to decide on the amount of calculus they wish to include. End-of-chapter problems with selected answers at the end of the book

allow students to assess their progress.

Divided into short units which allow for ease of use, this textbook covers the latest economic theories and applied economics. Hundreds of questions and activities are included to ensure students develop the understanding and skills for examination success.

*Best-selling and highly respected author, Alain Anderton. *Clear unit structure throughout allows teachers and lecturers to construct their own pathways. *Vast array of topics covered, with units at the end of the book dedicated to study skills and examination techniques. *Over 500 questions and activities, which will ensure that students develop the understanding and skills required for greater examination success.

The population processes in which we all participate are compared, contrasted, and synthesized into understandable trends in the latest edition of this widely acclaimed text. The authors' cogent analysis encompasses demographic milestones like surpassing the seven billion population mark and becoming a majority urban population for the first time in human history, as well as the repercussions of a global financial crisis and the implications of two important ongoing trends: aging and fertility decline. New data, examples, and discussions of emerging demographic issues are incorporated throughout the value-priced Fourth Edition, along with graphics that highlight trends and facilitate comparisons among world regions. This pedagogically rich volume also includes propositions for debate and end-of-chapter exercises that allow readers to become comfortable with the quantitative tools that demographers use to measure and describe populations. Moreover, users will learn about some of the people behind the research that informs this text in a new feature called Careers in Demography.

This updated all-in-one textbook for Pearson Edexcel A level Economics A combines revised topic-by-topic guidance with brand new material. This book: - provides full coverage of all topics on the Edexcel A level Economics A specification - builds confidence and essential quantitative skills with knowledge check questions and exercises throughout the book, and answers available online - helps you understand and explain key economic concepts and issues accurately and effectively with clearly defined key terms throughout the text and in the theme-by-theme glossaries - keeps you up to date: new exciting case studies with follow-up questions linked to key specification topics will help you analyse and evaluate important economic trends and developments - develops important skills through new practice questions coupled with extracts and figures, and answers available online

Divided into short units which allow for ease of use, this full colour textbook covers the latest economic theories and applied economics. Over 500 questions and activities are included to ensure students develop the understanding and skills for examination success.

What can prosperity possibly mean in a world of environmental and social limits? The publication of Prosperity without Growth was a landmark in the sustainability debate. Tim Jackson's piercing challenge to conventional economics openly questioned the most highly prized goal of politicians and economists alike: the continued pursuit of exponential economic growth. Its findings provoked controversy, inspired debate and led to a new wave of research building on its arguments and conclusions. This substantially revised and re-written edition updates those arguments and considerably expands upon them. Jackson demonstrates that building a 'post-growth' economy is a precise, definable and meaningful task. Starting from clear first principles, he sets out the dimensions of that task: the nature of enterprise; the quality of our working lives; the structure of investment; and the role of the money supply. He shows how the economy of tomorrow may be transformed in ways that protect employment, facilitate social investment, reduce inequality and deliver both ecological and financial stability. Seven years after it was first published, Prosperity without Growth is no longer a radical narrative whispered by a marginal fringe, but an essential vision of social progress in a post-crisis world. Fulfilling that vision is simply the most urgent task of our times.

Build economics knowledge through active learning with the latest Powell textbook, featuring quantitative skills practice and brand new case studies. This textbook has been fully revised to reflect the 2015 AQA Economics specification, giving you up-to-date material that support your teaching and will enable your students to: - Develop subject knowledge with topic-by-topic support from Ray Powell and James Powell, who are experienced in teaching and examining - Demonstrate awareness of current issues in economics through brand new case studies that also help build analytical and evaluative skills - Explain important concepts and issues effectively; key terms throughout the text and in the microeconomic and macroeconomic glossaries help to establish the language of economics - Build quantitative skills with worked examples - Stretch and challenge their knowledge with extension materials - Prepare for exams with practice questions and activities throughout Contents Part 1 Microeconomics Chapter 1: The economic problem and economic methodology Chapter 2: Price determination in a competitive market Chapter 3: Production, costs and revenue Chapter 4: Competitive and concentrated markets Chapter 5: The market mechanism, market failure and government intervention in markets Part 2: Macroeconomics Chapter 6: The measurement of macroeconomic

performance Chapter 7: How the macroeconomy works: the circular flow of income, AD/AS analysis, and related concepts Chapter 8: Economic performance Chapter 9: Macroeconomic policy

Develop your students' knowledge of economic themes 1 and 2 of the Edexcel specification and put theory into context, with focused case studies and practice activities. Maximise their potential in Edexcel A level Economics A with this Edexcel-endorsed textbook, which includes topic-by-topic guidance from Peter Smith: - Keep your students' up to date with the rapidly changing world: new exciting case studies will help them analyse and evaluate - Build their quantitative skills with worked examples and practice activities throughout the book - Ensure they can explain key economic concepts and issues accurately and effectively: learn the key terms throughout the text and in the theme-by-theme glossaries - Feel confident in their exam skills: put what they learn into practice with activities and practice questions Contents Theme 1 Introduction to markets and market failure - Chapter 1 The nature of economics - Chapter 2 The nature of demand - Chapter 3 The nature of supply - Chapter 4 How markets work: price determination - Chapter 5 How markets work: the price mechanism in action - Chapter 6 Market failure and externalities - Chapter 7 Market failure: public goods and information gaps - Chapter 8 Government intervention and government failure Theme 1 key terms Theme 1 practice questions Theme 2 The UK economy - performance and policies - Chapter 9 Measures of economic performance: economic growth - Chapter 10 Measures of economic performance: inflation, unemployment and the balance of payments - Chapter 11 Aggregate demand - Chapter 12 Aggregate supply - Chapter 13 National income and macroeconomic equilibrium - Chapter 14 Economic growth - Chapter 15 Macroeconomic policy objectives - Chapter 16 Macroeconomic policies Theme 2 key terms Theme 2 practice questions Index
