Teaching your child to forgive is an essential tool in life that will make the transition from childhood to adolescence easier. Holding onto anger and resentment is a recipe for anxiety and depression for both children and adults. The earlier forgiveness is taught, the earlier you can prevent children from undertaking the role of the victim. That in turn helps to prevent anxiety and depression. This inspiring fable tells the story of two friends, Rabbit and Monkey, who have a tradition of embarking on a different adventure every year. This year, they both decide to set off on a rather challenging adventure, even more challenging than their last. They both agreed that they will take a journey through the desert to the amazing oasis. However, on their way, they experience some difficulties that puts their friendship to the test. “Meldahl takes the reader on a tour of coastal Southern California, deftly explaining its complex geologic history, coastal geology, surfing spots, and the processes that shape them. Richly illustrated and told with great humor and enlightening analogies, Surf, Sand, and Stone is easily accessible yet contains valuable resources for those who want to delve deeper.” Mark Johnsson, staff geologist, California Coastal Commission "Surf, Sand, and Stone is an entertaining and very readable explanation of the complex geology and oceanography of the Southern California coast. Meldahl must be an excellent teacher as he has a real gift for writing about complex topics in a comfortable, engaging, and fascinating manner." Gary Griggs, Director, Institute of Marine Sciences, UC Santa Cruz Southern California is sandwiched between two tectonic plates with an ever-shifting boundary. Over the last several million years, movements of these plates have dramatically reshuffled the Earth's crust to create rugged landscapes and seascapes riven with active faults. Movement along these faults triggers earthquakes and tsunamis, pushes up mountains, and lifts sections of coastline. Over geologic time, beaches come and go, coastal bluffs retreat, and the sea rises and falls. Nothing about Southern California's coast is stable. Surf, Sand, and Stone tells the scientific story of the Southern California coast: its mountains, islands, beaches, bluffs, surfing waves, earthquakes, and related phenomena. It takes readers from San Diego to Santa Barbara, revealing the evidence for how the coast's features came to be and how they are continually changing. With

a compelling narrative and clear illustrations, Surf, Sand, and Stone outlines how the coast will be altered in the future and how we can best prepare for it.

A little girl misses having anyone to play with on the beach - until she realizes she can create a companion of her own. But what will she do when her sand sister must return to the sea? This touching story is all about the power of the imagination.

Paul Muldoon's ninth collection of poems, his first since *Hay* (1998), finds him working a rich vein that extends from the rivery, apple-heavy County Armagh of the 1950s, in which he was brought up, to suburban New Jersey, on the banks of a canal dug by Irish navvies, where he now lives. Grounded, glistening, as gritty as they are graceful, these poems seem capable of taking in almost anything, and anybody, be it a Tuareg glimpsed on the Irish border, Bessie Smith, Marilyn Monroe, Queen Elizabeth I, a hunted hare, William Tell, William Butler Yeats, Sitting Bull, Ted Hughes, an otter, a fox, Mr. and Mrs. Stanley Joscelyne, an unearthed pit pony, a loaf of bread, an outhouse, a killdeer, Oscar Wilde, or a flock of redknobs. At the heart of the book is an elegy for a miscarried child, and that elegiac tone predominates, particularly in the elegant remaking of Yeats's "A Prayer for My Daughter" with which the book concludes, where a welter of traffic signs and slogans, along with the spirits of admen, hardware storekeepers, flimflammers, fixers, and other forebears, are borne along by a hurricane-swollen canal, and private grief coincides with some of the gravest matter of our age. *Moy Sand and Gravel* is the winner of the 2003 Pulitzer Prize for Poetry.

A modern, summery spin on the classic *The House That Jack Built*, in which Lola's day at the beach leads to new friends and a giant sandcastle. Lola is building her dream sandcastle--one with a tall, tall tower and sea glass that sends signals to mermaids. But the beach is crowded, and soon enough, a boy steps on her castle. Not to worry! Lola recruits him to build a wall. When a toddler with a bulldozer starts digging too close the walls, Lola decides he can be in charge of digging the moat. As the sandcastle grows, so does Lola's friendly group of helpers. There's only one thing that Lola doesn't want near the sandcastle: a wave! Will the new friends be able to salvage the mermaids' castle when their hard work is washed away? "Dig into this playful, beachy read."--Kirkus "The delightful text, coupled with nondogmatic examples of intent cooperation, make this a wonderful choice for group sharing and a great vehicle for launching the beach season."--SLJ "The collage and mixed-media illustrations make the shoreline landscape and the chill vibe of a beach vacation feel very close at hand. In an age of adult-organized play, this book offers a fun but pointed reminder that children are more than capable of organizing themselves."--Publishers Weekly
