Similarities between TOGAF and BABOK When I was reading the Strategy Analysis chapter of the Guide, it struck me how much BABOK tries to be complimentary with TOGAF. I said 'tries' because it started with the release of version two in 2009 and looking now at the market trends in 2015, we can safely say that integration between those two standards is not ubiquitous.

For example standards such as PRINCE2, BABOK, BIZBOK, TOGAF, COBIT, ITIL and PMBOK are designed to ensure reliability of team output and approach across various business activities. However, in many instances these standards, operating together, present important gaps and overlaps. One wonders whose job it is to integrate and unify these standards.

How many people have TOGAF 9, ArchiMate 2 and BABOK (IIBA)
certificates? The other day I was watching some action movie and there
was a scene when main character found some list of people and in order
to find suspects of a crime had to cross-check it against other lists
to find suspects (people present in all lists). In mathematics common
part of two (or more) sets is a trivial thing to do.
