Standards (IFRS) continues to give readers a solid foundation in the fundamentals of accounting and the basics of financial statements under IFRS, and then builds upon that foundation to offer more advanced and challenging concepts and problems. This approach helps students to better understand the meaning and relevance of financial information and develop the skills needed to analyze financial information in both their courses and careers.

International Financial Reporting Standards (IFRS) Definition

International Financial Reporting Standards, commonly called IFRS, are accounting standards issued by the IFRS Foundation and the International Accounting Standards Board (IASB). They constitute a standardised way of describing the company's financial performance and position so that company financial statements are understandable and comparable across international boundaries.

Level 3 inputs. Level 3 inputs inputs are unobservable inputs for the asset or liability. [IFRS 13:86] Unobservable inputs are used to measure fair value to the extent that relevant observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date.
