Algebra is just like a puzzle where we start with something like " $x - 2 = 4$ " and we want to end up with something like " $x = 6$ ". But instead of saying "obviously $x=6$ ", use this neat step-by-step approach: Work out what to remove to get " $x = \dots$ " Remove it by doing the opposite (adding is the opposite of subtracting)

Core. Algebra 1 builds students' command of linear, quadratic, and exponential relationships. Students learn through discovery and application, developing the skills they need to break down complex challenges and demonstrate their knowledge in new situations. Course topics include problem-solving with basic equations and formulas; an introduction to functions and problem solving; linear equations and systems of linear equations; exponents and exponential functions; sequences and functions;

~~Algebra 1 | Apex Learning~~

While you are working on Unit 1 in Apex, you should also be working on the Khan Academy Pre-Algebra Arithmetic Properties section. You can see the link below to see the videos and practice problems included in this section. The videos are a resource if you need them. You are expected to master the skills given in the practice problems.

~~Intro to Algebra - Mrs. Walker's Class~~

Focusing on review of pre-algebra skills and introductory algebra content, Algebra 1-A allows students to deepen their understanding of real numbers in their various forms and then extend their knowledge to linear equations in one and two variables. Course topics include problem solving; integers; the language of algebra; fractions and decimals; exponents; solving equations with four basic operations; solving equations with roots, powers, or multiple steps; functions; introduction to set theory;
