Investments is a well written text book that has been updated frequently. It is refreshing to see examples in the book from 2007 that touch upon what is behind the failing of the lending institutions. It is easy to read and makes learning some rather complicated investment subjects easier.

Amazon.com: essentials of investments 9th

A really good book is Investment Science, by David Luenberger. Although his text assumes you have some background in calc/stat/probability theory, the writing, examples, and organization is far superior. You'll actually begin to understand how investment really works, without getting bogged down by the numbers, terminology, and jargon.
