Invisible Camorra she reveals a surprising alteration in Camorra behavior when operatives live outside the Neapolitan base. When gang members move away from Naples, having been forced out by intense policing and gang competition, they are attracted by business opportunities that, on the whole, fit in with their usual activities. Gang members avoid the spectacular deployment of violence, they merge quietly into local life, they keep themselves to themselves, and, when necessary, use legitimate local actors such as lawyers and accountants to further their economic well-being. Allum has constructed a meticulous description and analysis of Camorra activities abroad. To build accounts of the Camorra in Germany and

The result is the first systematic analysis of the overseas activities of this major criminal organization.
