Created by a National Board Certified teacher, instills the ability to read into kindergarten thru second grade students. Since only about 10% of text can be decoded using the basic 26 letter sounds of the alphabet, this is a much needed program in education today. It is easily implemented and designed to accommodate the time constraints of teachers. The Word Queen engages children holistically through real life interactions and creates an enthusiasm and eagerness to learn! Teachers say: "The kids are so excited, they don't even realize they are learning!"

that fun learning gets better results. Hello! Flex 4 demonstrates how to get started without getting bogged down in technical detail or academic edge cases. In this book, User Friendly cartoon characters offer commentary and snide side comments, as the book moves quickly from Hello World into practical techniques. Each one is illustrated with a hands-on example. Along the way, readers will build a unique Flex application that mashes Yahoo Maps with Twitter to keep track of friends. Purchase of the print book comes with an offer of a free PDF, ePub, and Kindle

Flex 4 framework, developers can build rich, immersive solutions more easily and quickly than ever. Much of Flex 4's remarkable power is based on its component-based approach. Adobe provides many components "out of the box," but you can accomplish even more by building your own. In *Developing Flex 4 Components*, world-renowned Flex and Flash developer Mike Jones thoroughly demystifies all facets of Flex component development, showing how to quickly create and deliver high-value components to the widest possible audience. Jones introduces the Flex 4 component architecture,
