Memory Aids & Useful Rules Flipper - Klinger
Memory aids which can be easily integrated into the routine of the person with dementia will cause least disruption and therefore may work best. Start using memory aids as early as possible as they work best during the early stages of dementia. Some people with dementia may prefer not to use memory aids, as they may view them as constant reminders of their memory problems. Where possible, only use memory aids with the consent of the person with dementia.
