Ms Project Server 2010 User

Add a user account in Project Server 2010 Identification Information. Use the Identification Information section to specify user information such as name, e-mail... User Authentication. Use the User Authentication section to specify the user's logon account and whether the user... Assignment ...

Add a user account in Project Server 2010 - Project Online

First I want to show you the difference between Users and Resources. When you create Resource in MS PROJECT PROFESSIONAL 2010, PROJECT SERVER 2010 creates User for that Resource. Resource is someone you need to do actual work on your Project (Projects). User can be someone who will use PROJECT SERVER 2010, but who will not work on tasks on projects. For example, you can have Administrator who will administrate your PROJECT SERVER 2010, but who will do no work on any Task on any Project.
