A textbook on computer science

A textbook on computer science

This book/DVD package introduces the necessary steps and stages of planning a modern multimedia Web site. It includes both the design and development aspects for novices and a complete plan to get you started with the core technologies and techniques for professional Web design on a freelance or organizational basis. The text also covers the current languages e.g., HTML5, CSS3, JavaScript, PERL, PHP, and mySQL, that are needed to construct dynamic content on the Web and milestones for getting it

# Bookmark File PDF Multimedia And Web Technology

into the hands of your clients sooner. Features: Provides a complete guide for developers and designers to see both front-end and back-end design elements Uses various languages e.g., HTML5, CSS3, JavaScript, PERL, PHP, and mySQL to maximize efficiency of modern and dynamic Web pages Uses design principles and best practices from an experienced freelance Web designer and instructor Includes language examples for self-study and challenging activities for expanding design and development; instructor's resources available for use as a textbook

A comprehensive textbook covering introductory multimedia concepts, *Multimedia for the Web* gives students a solid foundation in the planning process and design considerations, while covering industry standard applications and emerging technologies.

"This book highlights comprehensive research that will enable readers to understand, manage, use, and maintain business data communication networks more effectively"--Provided by publisher.

This book provides a succinct introduction to the technologies and skills needed for developing interactive, animated and client-sided multimedia content for web pages. This text will guide you from simple static pages to DHTML and JavaScript, through to advanced animation and multimedia techniques using DirectAnimation, SVG and SMIL. The text assumes only that you have some possibly very limited experience of creating basic websites, and is ideal for anyone wishing to take their skills forward to create exciting, dynamic multimedia web pages.
