Prentice Hall Physical Science: Concepts in Action helps students make the important connection between the science they read and what they experience every day. Relevant content, lively explorations, and a wealth of hands-on activities take students' understanding of science beyond the page and into the world around them. Now includes even more technology, tools and activities to support differentiated instruction!

Now there's a way to blend balanced literacy and formative assessment. This book infuses research-based best practices of formative assessment through the lens of Common Core, with assessment support in these areas: read-alouds, guiding language into reading, language and literacy centers, and independent reading and writing. It also includes the "how" for novice and veteran K-8 teachers, administrators, and school literacy teams. Resources are included to help educators collect information and provide feedback to students.

Intended for K-3 classroom teachers, explains how to create a balanced literacy program based on guided reading and supported by reading aloud, shared reading, interactive writing, and other approaches.

To purchase or download a workbook, click on the 'Purchase or Download' button to the left. To purchase a workbook, enter the desired quantity and click 'Add to Cart'. To download a free workbook, right click the 'FREE Download PDF' link and save to your computer. This will result in a faster download, as opposed to left clicking and opening the link.

Auditory processing in children (APD) comprises an increasingly important clinical area within the broad field of communication disorders. This new textbook presents the major advances in the assessment and management of APD. The chapter authors, highly regarded clinicians and researchers from diverse professional groups, contribute an impressive breadth of knowledge to explain and demystify APD. This text will be useful to students of speech language pathology and audiology, as well as professionals in those fields.
