That means Curtis Jones, Alex Oxlade-Chamberlain, Naby Keita and James ... No fans other than those of Manchester United liked Gary Neville! Everyone saw Manchester United, Liverpool, Chelsea ...

In Fighting Churchill, Appeasing Hitler Adrian Phillips presents a radical new view of the British policy of appeasement in the late 1930s. No one doubts that appeasement failed, but Phillips shows that it caused active harm | even sabotaging Britain's preparations for war. He goes far further than previous historians in identifying the individuals responsible for a catalogue of miscalculations, deviousness and moral surrender that made the Second World War inevitable, and highlights the alternative policies that might have prevented it. Phillips outlines how Prime Minister Neville Chamberlain and his chief advisor, Sir Horace Wilson, formed a fatally nept two-man foreign-policy machine that was immune to any objective examination, criticism or assessment | ruthlessly manipulating the media to support appeasement while batting aside policies advocated by Winston Churchill, the most vocal opponent of appeasement. Churchill understood that Hitler was the implacable enemy of peace | and Britain | but Chamberlain and Wilson were terrified that any display of firmness would provoke him. For the first time, Phillips brings to light how Wilson and Churchill had been enemies since an incident early in their careers, and how, eventually, opposing Churchill became an end in itself. Featuring new revelations about the personalities involved and the shameful manipulations and betrayals that went into appeasement, including an attempt to buy Hitler off with a ruthless colonialist deal in Africa, Fighting Churchill, Appeasing Hitler shines a compelling and original light on one of the darkest hours in British diplomatic history.

This volume tells the story of the first sixty years of Chamberlain's life.

As a primary source of historical evidence and insight, it is difficult to overstate the value and importance of Neville Chamberlain's diary letters to his sisters.A They represent the most complete and illuminating 'insider' record of British politics between the wars yet to be published.A From 1915 Chamberlain wrote detailed weekly epistles to his sisters until his death in 1940; a confidential account of events covering the quarter of a century during which he stood at the very centre of Conservative and national politics.A Beyond the fascination of the historical record of people and events, these letters are extremely valuable for the remarkable light they throw upon the personality and character of the private man lurking behind the austere forbidding public persona.

History has not looked kindly upon Neville Chamberlain. Despite a long and distinguished political career, his trip to Munich in 1938 and the 'appeasement' of Hitler have forever overshadowed his many other achievements and blighted his reputation, his name now synonymous with the futility of trying to reason with dictators and bullies. Yet, as this biography shows, there is much more to this complex and intriguing character than is generally supposed, and even the infamous events of 1938 are open to more charitable interpretations than is usually the case. Appeasement brought the British government crucial time in which to rearm, and in particular allowed the RAF to drastically increase the number of fighter aircraft it could muster for the Battle of Britain during the summer of 1940. Based on the study of over 150 collections of private papers on both sides of the Atlantic, as well as exhaustive exploration of British government records held in the National Archives, it is no exaggeration to say that the author has surveyed virtually all the existing archival material written by or to Chamberlain, as well as a high proportion of that referring to him. As such, this volume will no doubt establish itself as the definitive account of Chamberlain's life and career, and provide a much fuller and fairer picture of his actions than has hitherto been the case.

"The book details the course of that historiographical debate, beginning with the earliest accounts on appeasement from 1938 through 1940."

Originally published in 1909. The accounts here of Sir Neville Chamberlain's most successful campaigns are drawn from his own official reports, his private letters to his sister at home and contemporary narratives. It does not go into any details about his later years but focuses solely on his skill as a military captain, and his many exploits. Author: G.W. Forrest, C.I.E. Language: English Keywords: Biography Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. Obscure Press are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Including: A Final Appeal for Peace and Sanity, July 1940, by Adolf Hitler; Hitler's Political Testament, April 1945; Hermann Goring's Last Letter to Winston Churchill, Nuremberg, October 1946, and Neville Chamberlain in The Forrestal Diaries: "The World Jews Have Forced England into the War." Written by Germany's foremost diplomatic historian of the early twentieth century, this work maps out all the numerous times that Adolf Hitler made unconditional offers of peace to all the nations of Europe-and how the major anti-German belligerents, France and Britain, turned down these offers each and every time. This edition benefits from four new sections which did not appear in the original publication. These are: - The full text of Hitler's "Appeal for Peace and Sanity" speech, made before the Reichstag on July 19, 1940. - Hitler's Political Testament, dictated just hours before his death on April 29, 1945, wherein he spelled out once again how he had tried to avoid the war. - Hermann Goring's final letter-from this death cell in Nuremberg-to Winston Churchill, in which he blamed the latter's warmongering on behalf of "Jewish Bolsheviks" for the conflict; and - An extract from The Forrestal Diaries, in which the US Secretary of State William Forrestal quotes British Prime Minister Neville Chamberlain as complaining that "the world Jews" have forced England into the war. Fully reset and illustrated throughout with 22 rare photographs and reproductions of original documents.

An engaging range of period texts and theme books for AS and A Level history. This book examines the key roles played by Adolf Hitler and Neville Chamberlain in the events that led to the outbreak of the Second World War. It looks at Hitler's foreign-policy aims, why appeasement became British foreign policy and, most extensively, the role of Chamberlain and appeasement in the unfolding international crisis of the late 1930s. Using a wide range of primary sources, Frank McDonough offers a generally critical interpretation of Chamberlain and appeasement, and suggests that standing up to Hitler earlier may have prevented war. The book also features a detailed analysis of the historical debates surrounding the issue of appeasement.

Malcolm Gladwell, host of the podcast Revisionist History and author of the #1 New York Times bestseller Outliers, offers a powerful examination of our interactions with strangers and why they often go wrong|now with a new afterword by the author. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? Talking to Strangers is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland|throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller David and Goliath, Malcolm Gladwell has written a gripping guidebook for troubled times.
