In 2009, a bipartisan Knight Commission found that while the broadband age is enabling an info. and commun. renaissance, local communities in particular are being unevenly served with critical info. about local issues. Soon after the Knight Commission delivered its findings, the FCC initiated a working group to identify crosscurrent and trend, and make recommendations on how the info. needs of communities can be met in a broadband world. This report by the FCC Working Group on the Info. Needs of Communities addresses the rapidly changing media landscape in a broadband age. Contents: Media Landscape; The Policy and Regulatory Landscape; Recommendations. Charts and tables. This is a print on demand report.

A look at the German High Command during World War II challenges the myth that the German Generals could have won the war had Hitler not interfered, and maps out the history and the personalities of the German Command Structure.

Designed to help those businesses with an established market position, this text adopts a practical approach to the issues encountered by rapidly expanding businesses. The handbook presents a range of practical strategies for managing growth, focusing on how companies can fulfil their potential by adopting appropriate funding, adapting their structure and ownership, as well as developing world-class management capabilities.

Agriculture to Zoology: Information Literacy in the Life Sciences sets the stage for purposefully integrating information literacy activities within the subject-specific content of the life sciences. The book is written for librarians and other professionals who teach information literacy skills, especially those in the science disciplines, and most especially the life sciences. It is also intended to be helpful to secondary school teachers, college faculty who teach life science-related subjects, library school students, and others interested in information literacy and science education. Anyone wanting to learn more about the Earth's life sciences, from citizen to scientist, will benefit as well. The book's seven chapters fill a gap with varying perspectives of literacy instruction in the life sciences and include resources identified by academic librarians as important for use in subject-specific research in higher education. Contributors are longtime specialists in the fields of the life sciences, science and information literacy, scientific and electronic communication, assessment, and more, including Arctic and Antarctic information. Specialized focus on information literacy in the life science disciplines, rather than information literacy in general Discussion of library instruction, featuring methods, tools, and assignments to engage students in different areas of the life sciences Chapters on specific life science subjects highlight traditional as well as non-traditional sources

Sphingolipids are lipid components of the plasma membrane in eukaryotic cells. They have an important function in signaling mechanisms in the cell. This book on sphingolipids provides insights into the basics of sphingolipid biology and drug development, with a particular emphasis on the sphingolipid derivative ceramide. In the first part basic functions of sphingolipids are described, as well as the genetics of important enzymes, sphingolipid metabolism and synthesis. The second part of this first volume focuses on drug development and pharmacology. The book is intended for scientists in pharmacology, biochemistry and cell biology with a focus on biomedical research as well as for clinicians working in pharmacology, oncology, cardiology, neurology and infectious disease. Together with Volume 216 by the same editors, the collection represents a unique, comprehensive work on sphingolipids, providing information on both sphingolipids' basic biology (including synthesis, metabolism and cell biology) and their important function in a (patho-)physiological context.

Academic Connections is a four-level integrated skills course designed

Read Free Nokia 6350 Troubleshooting Guide

for students preparing for academic study as well as for standardized tests such as the TOEFL® test. A systematic, step-by-step approach helps students develop and sharpen their language, academic, and test-taking abilities. Academic Connections was developed with the Educational Testing Service (ETS) and is based on extensive research into the actual language demands of higher education. Academic Connections is: Integrated. Academic Connections integrates all four language skills and teaches students how to integrate skills and content in real-world academic contexts. Academic. Explicit, step-by-step academic skill development leads to student mastery. With careful instruction and engaging practice tasks, students learn how to organize information, make connections, and think critically. Authentic. High-interest and intellectually stimulating authentic material familiarizes students with academic content. Authentic tasks include listening to lectures, note-taking, participating in debates, preparing oral and written reports, and writing essays. Assessment-Based. Academic Connections provides a variety of assessments and practice opportunities based upon individual needs. The Audio CD is available separately. Online Component – MyAcademicConnectionsLab MyAcademicConnectionsLab, an integral part of the Academic Connections series, is an easy-to-use online program for students and teachers that saves time and improves results. Students receive personalized instruction and practice. Reading and listening selections and test preparation are all in one place – available anywhere, anytime. Teachers can take advantage of content and class management resources including online assessments, a flexible gradebook, and tools for monitoring student progress.
