Book Two of the bestselling Lux series Being connected to Daemon Black sucks... Thanks to his alien mojo, Daemon's determined to prove what he feels for me is more than a product of our bizarro connection. So I've sworn him off, even though he's running more hot than cold these days. But we've got bigger problems. Something worse than the Arum has come to town... The Department of Defense is here. If they ever find out what Daemon can do and that we're linked, I'm a goner. So is he. And there's this new boy in school who's got a secret of his own. He knows what's happened to me and he can help, but to do so, I have to lie to Daemon and stay away from him. Like that's possible. Against all common sense. I'm falling for Daemon. Hard. But then everything changes... I've seen someone who shouldn't be alive. And I have to tell Daemon, even though I know he's never going to stop searching until he gets the truth. What happened to his brother? Who betrayed him? And what does the DOD want from them—from me? No one is who they seem. And not everyone will survive the lies... The New York Times bestseller—part of the expanded universe based on the award-winning video game series Halo! The twenty-sixth century. Once considered clandestine, the Spartan-II program has now gone public. Tales of armored super-soldiers fending off thousands of Covenant attacks have become the stuff of legend. While the Master Chief defends a besieged Earth, and the myriad factions of the Covenant continue their crusade to eliminate humanity, an ultra-secret cell of the Office of Naval Intelligence known as “Section Three” devises a plan to buy the UNSC vital time. It will need hundreds of willing soldiers, though—and one more Spartan—to get the job done. The planet Onyx is virtually abandoned and the perfect place to set this new plan in motion. But when the Master Chief destroys Halo, something is triggered deep within Onyx: Ancient Forerunner technology stirs, and fleets of UNSC and Covenant vessels race to claim it and change the course of the Human-Covenant War. But this reawakened and ancient force may have plans of its own...

New York Times–bestselling author Jacqueline Briskin delivers a richly romantic, epic novel about the founding of the automobile industry, spanning two continents and five turbulent decades of American history In 1894, while penniless nineteen-year-old Tom Bridger works at a Michigan furniture company that fuels his ambitions, he falls in love with beautiful, sophisticated Antonia Dalzell. But his real talent is inventing machines. He’s secretly working on an electrical replacement for the horseless carriage. So is his friend, engineer Henry Ford. With America still a bit player on the burgeoning automotive stage, Tom dreams of creating a company to rival the dazzling car manufacturers of Europe. Through vision and hard work, he achieves his greatest ambition. Onyx, his automobile company, is a world away from his humble beginnings and the shameful legacy he carries. Successful beyond his wildest dreams, Tom becomes America’s first billionaire. But through it all, he is haunted by his passion for Antonia, the woman he could never marry—and he finds himself challenged by their son, who is determined to destroy Tom’s empire. With vibrant, emotionally complex characters and authentic historical detail, The Onyx is an unforgettable novel about the cost of a lie, the lengths to which a man will go to honor a promise . . . and the secrets he will carry to his grave.
