Personality Theories University of Phoenix Individuality is expressed through unique behavior, also known as personality. Personality can be broken down into four perspectives, psychoanalytic, humanistic, social cognitive, and trait. Each perspective describes in detail what helps compare and contrast individuals to one another. Personality theories go into further detail from the perspective.

Answer: Hank fixated, according to the Freudian perspective?

## Freud case study 1:

Sigmund Freud developed psychodynamic theories on personality. He believed that there are three elements to our personality. The first is the ID, the second is the ego, and the third is the superego. He believed that each element keeps the others in check; therefore if all elements are well balanced the person had a healthy personality.
