The pimp has reached nearly mythical status. We are fascinated by the question of how a guy from the ghetto with no startup capital and no credit -- nothing but the words out of his mouth -- comes not only to have a stable of sexy women who consider him "their man," but to drive a Rolls, sport diamonds, and wear custom suits and alligator shoes from Italy. His secret is to follow the "unwritten rules of the game" -- a set of regulations handed down orally from older, wiser macks -- which give him superhuman powers of charm, psychological manipulation, and persuasion. In Pimpology, star of the documentaries Pimps Up, Ho's Down and American Pimp and Annual Players Ball Mack of the Year winner Ken Ivy pulls a square's coat on the unwritten rules that took him from the ghetto streets to the executive suites. Ken's lessons will serve any person in any interaction: Whether at work, in relationships, or among friends, somebody's got to be on top. To be the one with the upper hand, you've got to have good game, and good game starts with knowing the rules. If you want the money, power, and respect you dream of, you can't just "pimp your ride," you need to pimp your whole life. And unless you've seen Ray Charles leading Stevie Wonder somewhere, you need Ken's guidelines to do it. They'll reach out and touch you like AT&T and bring good things to life like GE. Then you can be the boss with the hot sauce who gets it all like Monty Hall

A celebrity street boss shares insider rules about image, seduction, and power as learned from his mentors, in a guide that reveals the importance of establishing one's value, winning loyalty, and inviting pursuit.

"When I speak of love, It's Pimpin I'm speaking of." - Pimpin Ken Pimpology refers to the study of pimping and the psychology behind it. The principals of Pimpology teaches you how to control and manipulate others, by understanding the principles of brain psychology. When one learns how the brain works and how to use the brain to get others to move how you want to, you have entered into the mindset of a true PIMP. The Pimp game runs through every culture, color and financial status, regardless if you realize it or not. The Pimp game has stood the test of time, by selling a product that will always have demand. Disclaimer: This book is not about using people or getting over on others, even if there are techniques listed to do so. The sole purpose of this book is to teach you the Psychology techniques that pimps use to control prostitutes. By learning the psychology and thinking behind some of the worlds most successful pimps such as Bishop "Magic" Juan, Pimpin Ken, Fillmore Slim and many more..... you will gain the techniques that empower your self esteem, communication skills and self awareness to Pimp the Game of Life, instead of being Pimped by it.

The former Hollywood king reveals secret techniques with proven results on mastering the art of submission. A look inside of the mind of the master as well as a chilling peek into the shadow world. A modern-day guide parallel to The Prince by Machiavelli (link). This book gives a panoramic view of the psychology that goes into the complete control over others-mind, body and spirit. Secrets known by a select sect and mastered by an elite few are finally exposed. The Pimp Game thoroughly explains how these methods are being practiced, performed, and perfected every day, everywhere right up to, and including the Oval office.

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of The Laws of Human Nature. In the book that People magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, The 48 Laws of Power is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Throughout the book, the authors address the specific vulnerabilities of human trafficking victims, their medical-psycho-social needs, and issues related to direct service delivery. They also address the identification of human trafficking crimes, traffickers, and the impact of this crime on the global economy. Using detailed case studies to illuminate real situations, the book covers national and international anti-trafficking policies, prevention and intervention strategies, promising practices to combat human trafficking, responses of law enforcement and service providers, organizational challenges, and the cost of trafficking to human wellbeing.
