Have you ever wondered what's inside you? Take a tour around your amazing body and find out what your heart and lungs do, how you see and hear, where food goes and more. "No Key Stage 1 classroom should be without the whole set" - The Bookseller

The Cat in the Hat takes Sally and Dick for a ride through the human body where they visit the right and left sides of the brain, meet the Feletons from far off Fadin (when they stand in the sun you can see through their skin), scuba dive through the blood system, follow food and water through the digestive tract, and a whole lot more!

A book and model combination reveals how the body works, covering major systems and processes with the help of a three-dimensional presentation which allows a hands-on exploration of the human body. On board pages.

What's going on inside our bodies? How do we move, eat, think, and breathe? Children will love looking inside the human body to discover the answers with this incredible interactive book. With labeled acetate diagrams of the muscular, skeletal, respiratory, circulatory, digestive, excretory, and nervous systems, this is a fantastic first look at human anatomy. From pumping blood to breathing air, The Body Book is an exciting way to explore all the amazing things our body can do.

Discover the wonders of the human body in this ingenious and fascinating book. The first part is packed with fun facts and clear, appealing illustrations. The second part uses five layers of transparent acetate to create a novel way of exploring the body's systems for yourself - just turn the pages to reveal the skeleton, muscles, nerves, digestive system, and circulation system. Study them separately, or turn back the pages to build up a complete human body. Perfect for children ages 6 and up.

Peek inside your body, from head to toe! Where does food go after you swallow it? Where is your heart, and what does it do? Where are your lungs? What do your knees really look like? "X-ray" the inside of your body from head to toe with this irresistible, interactive, large-format board book! Two die-cut handles allow readers to hold the book up to their bodies and visualize various body parts and organs—including bones, the brain, lungs, heart, and many more. This unique book is perfect for sharing with friends and sharing in the classroom! The bright, bold illustrations are clearly labeled and offer an introduction to the way the body works. The unique format encourages interaction, both in the classroom and at home. A great choice for learning together. X-Ray Me! features ten images of what's inside your body and includes basic information about organs, systems, and your skeleton. Operating Instructions: Open the book and hold it up to your body. Now move the book up and down, from head to toe, and discover the cool stuff underneath your skin. What do you see? How does your body work?
