eliminate the disease gene? The answer is that although the sickle-cell allele can cripple your red blood cells, it can also protect you against malaria. Having one copy of HbS (the sickle-

Bookmark File PDF Sickle Cell Alleles Simbio

cell allele) protects you from becoming sick from malaria. Heterozygous (HbS/HbA) red blood cells that become infected with the malaria protozoa will sickle. The body's immune system recognizes that something is wrong with the sickled cells and disposes of them.
