The Art of War is a translation of Sun Tzu's originally written book on battle strategies by author James Clavell. Sun Tzu believed war to be an essential wrongdoing that must be got rid of whenever it can be. The war should be fought fleetingly to reduce economic decline. Sun Tzu harped on the significance of placement in military tactics. The planning to position an army must be dependent on the stipulations in the physical surroundings and the subjective thoughts of various militants in those conditions. He believed that strategy cannot be considered as planning with respect to glancing through a previously

But in case of an altering environment, similar plans come in each other's ways and give rise to undesired outcomes. The book has been a profound factor in the workings of Eastern and Western military strategies, business planning, legal thought processes, and more. (The Art of War by Sun Tzu, 9789380914893)
