Hew Strachan is one of the world's foremost experts on the Great War of 1914-18. His ongoing three-volume history of the conflict, the first of which was published in 2001, is likely to become the standard academic reference work: Max Hastings called it 'one of the most impressive books of modern history in a generation', while Richard Holmes hailed it as a 'towering achievement'.

And, for the first time, it offers a truly global vision of a conflict which is often misconceived as a prolonged skirmish on the Western Front. Strachan argues convincingly that the war had become a 'world war' long before the involvement of the United States and the Russian Revolution of 1917. Far from being a 'European civil war', the conflict involved the colonial territories of European powers, and touched areas as far-flung as the Balkans, Africa and the Ottoman Empire.

The First World War (2003) is a ten-part Channel 4 documentary television series surveying the history of World War I (1914-1918). It is based on the 2003 book of the same name by Oxford history professor Hew Strachan. (Additionally, a tie-in book of participant letters and diaries — A War in Words (2003) by Svetlana Palmer and Sarah Wallis — was published for the series.)

The First World War (TV series) - Wikipedia

The First World War was a truly global conflict from the start, with many of the most decisive battles fought in or directly affecting the Balkans, Africa, and the Ottoman Empire. Even more than World War II, the First World War continues to shape the politics and international relations of our world, especially in hot spots like the Middle East and the Balkans.

“This serious, compact survey of the war’s history stands out as the most well-informed, accessible work available.” (Los Angeles Times) Nearly a century has passed since the outbreak of World War I, yet as military historian Hew Strachan (winner of the 2016 Pritzker Literature Award) argues in this brilliant and authoritative new book, the legacy of the “war to end all wars” is with us still. The First World War was a truly global conflict from the start, with many of the most decisive battles fought in or directly affecting the Balkans, Africa, and the Ottoman Empire. Even more than World War II, the First World War continues to shape the politics and international relations of our world, especially in hot spots like the Middle East and the Balkans. Strachan has done a masterful job of reexamining the causes, the major campaigns, and the consequences of the First World War, compressing a lifetime of knowledge into a single definitive volume tailored for the general reader. Written in crisp, compelling prose and enlivened with extraordinarily vivid photographs and detailed maps, The First World War re-creates this world-altering conflict both on and off the battlefield—the clash of ideologies between the colonial powers at the center of the war, the social and economic unrest that swept Europe both before and after, the military strategies employed with stunning success and tragic failure in the various theaters of war, the terms of peace and why it didn’t last. Drawing on material culled from many countries, Strachan offers a fresh, clear-sighted perspective on how the war not only redrew the map of the world but also set in motion the most dangerous conflicts of today. Deeply learned, powerfully written, and soon to be released with a new introduction that commemorates the hundredth anniversary of the outbreak of the war, The First World War remains a landmark of contemporary history.

A brilliant and penetrating new history of the First World War by one of the world's foremost experts on the conflict. Reissued with a new introduction from the author. Hew Strachan is one of the world's foremost experts on the Great War of 1914-18. His on-going three-volume history of the conflict, the first of which was published in 2001, is likely to become the standard academic reference work: Max Hastings called it 'one of the most impressive books of modern history in a generation', while Richard Holmes hailed it as a 'towering achievement'. Now, Hew Strachan brings his immense knowledge to a one-volume work aimed squarely at the general reader. The inspiration behind the major Channel 4 series of the same name, to which Hew was chief consultant, THE FIRST WORLD WAR is a significant addition to the literature on this subject, taking as it does a uniquely global view of what is often misconceived as a prolonged skirmish on the Western Front. Exploring such theatres as the Balkans, Africa and the Ottoman Empire, Strachan assesses Britain's participation in the light of what became a struggle for the defence of liberalism, and show how the war shaped the 'short' twentieth century that followed it. Accessible, compelling and utterly convincing, this is modern history writing at its finest.

This is the first truly definitive history of the First World War, the war that has done most to shape the twentieth century. The first generation of its historians had access to only a limited range of sources, and their focus was primarily on military events. More recent approaches have embraced cultural, diplomatic, economic, and social history. In Hew Strachan's authoritative and readable history these fresh perspectives are incorporated with the military and strategic narrative. The result is an account that breaks the bounds of national preoccupations to become both global and comparative. To Arms, the first of three volumes in this magisterial study, examines not only the causes of the war and its opening clashes on land and sea, but also the ideas that underpinned it, and the motivations of the people who supported it. It provides full and pioneering accounts of the war's finances, of the war in Africa, and of the Central Powers' bid to widen the war outside Europe.

A comprehensive, illustrated history of World War I, its causes, impact on global politics and economy, military and political strategies, and the legacy it left behind.

The First World War, now a century ago, still shapes the world in which we live, and its legacy lives on, in poetry, in prose, in collective memory and political culture. By the time the war ended in 1918, millions lay dead. Three major empires lay shattered by defeat, those of Germany, Austria-Hungary, and the Ottomans. A fourth, Russia, was in the throes of a revolution that helped define the rest of the twentieth century. The Oxford History of the First World War brings together in one volume many of the most distinguished historians of the conflict, in an account that matches the scale of the events. From its causes to its consequences, from the Western Front to the Eastern, from the strategy of the politicians to the tactics of the generals, they chart the course of the war and assess its profound political and human consequences. Chapters on economic mobilization, the impact on women, the role of propaganda, and the rise of socialism establish the wider context of the fighting at sea and in the air, and which ranged on land from the trenches of Flanders to the mountains of the Balkans and the deserts of the Middle East. First published for the 90th anniversary of the 1918 Armistice, this highly illustrated revised edition contains significant new material to mark the 100th anniversary of the war's outbreak.

This book provides a clear, chronological account of the campaigns on the Western and Eastern fronts, and then moves on to investigate the often ignored areas of the war, such as war poets, logistics, and the diplomacy of war aims and peace moves.

This is a ground-breaking analysis, in which Professor Strachan illuminates the murky fiscal waters of the First World War with incisive insights and crystal-clear prose.

Professor Strachan brings his trademark clarity of thought and lucid expository style to bear on the long-contested ground of the causes of the First World War.
