“ With good judgment, little else matters. Without it, nothing else matters. ” Whether we ’ re talking about United States presidents, CEOs, Major League coaches, or wartime generals, leaders are remembered for their best and worst judgment calls. In the face of ambiguity, uncertainty, and conflicting demands, the quality of a leader ’ s judgment determines the fate of the entire organization. That ’ s why judgment is the essence of leadership. Yet despite its importance, judgment has always been a fairly murky concept. The leadership literature has been conspicuously quiet on what, exactly, defines it. Does judgment differ from common sense or gut instinct? Is it a product of luck? Of smarts? Or is there a process for making consistently good calls? Noel Tichy and Warren Bennis have each spent decades studying and teaching leadership and advising top CEOs such as Jack Welch and Howard Schultz. Now, in their first collaboration, they offer a powerful framework for making tough calls when the stakes are high and the right path is far from obvious. They show how to recognize the critical moment before a judgment call, when swift and decisive action is essential, and also how to execute a decision after the call. Tichy and Bennis bring their three-dimensional model to life with interviews with world-class leaders who have thrived or suffered because of their judgment calls. These stories include:

- Jeff Immelt, CEO of General Electric, whose judgment to grow through research and development transformed GE into the world ’ s premier technology growth company.
- Joel Klein, chancellor of the New York City Department of Education, who made tough calls about teachers, students, and parents while turning around a troubled school system.
- Jim McNerney, CEO of Boeing, whose strategic judgment helped him reinvigorate his company and restore a culture of trust and respect.
- The late general Wayne Downing, who found an unexpected opportunity in the midst of crisis when he led the Special Operations raid to capture Manuel Noriega.
- A. G. Lafley, CEO of Procter & Gamble, who bet \$57 billion to purchase Gillette and reinvent his company.
- Brad Anderson, CEO of Best Buy, who made the call to commit totally to a customer-centric strategy and led his people to execute it.

Whether you ’ re running a small department or a global corporation, Judgment will give you a framework for evaluating any situation, making the call, and correcting if necessary during the execution phase. It will show you how to handle the overlapping domains of people, strategy, and crisis management. And it will help you teach your entire team to make the right call more

often. No organization can afford to neglect this crucial discipline—and no previous book has ever brought it into such clear focus.

Curl up with these “ astonishingly good essays ” about hair and its many meanings by Anne Lamott, Suleika Jaouad, Maria Hinojosa, Marita Golden, and more (People). Ask a woman about her hair, and she just might tell you the story of her life. Ask a whole bunch of women about their hair, and you could get a history of the world. The essays in *Me, My Hair, and I* are reflections and revelations about every aspect of women ’ s lives from family, race, religion, and motherhood to culture, health, politics, and sexuality. They take place in African American kitchens, at Hindu Bengali weddings, and inside Hasidic Jewish homes. Also layered into these intimate reminiscences are tributes to influences from Farrah Fawcett to Botticelli ’ s Venus. The long and the short of it is that our hair is our glory—and our nemesis, our history, our self-esteem, our joy, our mortality. Every woman knows that many things in life matter more than hair, but few bring as much pleasure as a really great hairdo. “ A deliciously enlightening read, equal parts fun and poignant. ” —Chicago Tribune “ Explores a surprising range of issues, including identity, relationships, vanity, femininity, aging, and society. ” —The New York Times “ Untangles the many truths about hair, and the lives we lead underneath it. ” —Pamela Druckerman, New York Times-bestselling author of *Bringing Up Bébé* “ [A] splendid collection . . . By turns wry, tender, pointed, and laugh-out-loud funny. ” —Publishers Weekly

It is the Dark Ages and something evil is stirring. A ship sailing from Noviomagus across the channel to Gaul is caught in a ferocious storm and dashed against the rocks. There are only two survivors of the wreck, both children, and they are tossed up on the shore with a mysterious trunk. An old man rescues them from the beach. He seemed to know they would be coming, and he also appears very interested in the trunk. They cannot escape what lies inside, it is both good and evil, but binds itself to their destiny and sets them on a path which they are forced to follow, and face what lies at the end.

Entertaining, highly readable book pulses with the vernacular of young Americans from the end of the 19th century to the present. Alphabetical listings for each decade, plus fascinating sidebars about language and culture.

An important and powerful policeman has been murdered, bludgeoned to death in his own kitchen. Few in suburban Surrey mourn the violent passing of Division Commander Alastair Gilbert, whose arrogance and cruelty were legendary in his village and in wider police circles -- which only makes the job of Scotland Yard investigators Superintendent Duncan Kincaid and Sergeant Gemma James more difficult. And as every discovery reveals another instance of misplaced trust, festering secrets, and murderous rage, they must put aside their own personal feelings for the victim -- and for each other -- in the name of justice and the law.
