Can filmed history measure up to written history? What happens to history when it is recorded in images, rather than words? Can images convey ideas and information that lie beyond words? Taking on these timely questions, Robert Rosenstone pioneers a new direction in the relationship between history and film. Rosenstone moves beyond traditional approaches, which examine the history of film as art and industry, or view films as texts reflecting their specific cultural contexts. This essay collection makes a radical venture into the investigation of a new concern: how a visual medium, subject to the conventions of drama and fiction, might be used as a serious vehicle for thinking about our relationship with the past. Rosenstone looks at history films in a way that forces us to reconceptualize what we mean by "history." He explores the innovative strategies of films made in Africa, Latin America, Germany, and other parts of the world. He journeys into the history of film in a wide range of cultures, and expertly traces the contours of the postmodern historical film. In essays on specific films, including Reds, JFK, and Sans Soleil, he considers such issues as the relationship between fact and film and the documentary as visionary truth. Theorists have for some time been calling our attention to the epistemological and literary limitations of traditional history. The first sustained defense of film as a way of thinking historically, this book takes us beyond those limitations.

The acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation," All About Love is a revelation about what causes a polarized society and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. " The word ' love ' is most often defined as a noun, yet we would all love better if we used it as a verb, " writes bell hooks as she comes out fighting and on fire in All About Love. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society ' s failure to provide a

model for learning to love. As bell hooks uses her incisive mind to explore the question “ What is love? ” her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The Utne Reader declared bell hooks one of the “ 100 Visionaries Who Can Change Your Life. ” All About Love is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

Through poetry and story, *Daydreams and Night Visions* moves us through Charles Henley's transformational journey from a boy hopelessly addicted to drugs, alcohol, and the strife that accompanies addiction, to a man full of hope, love, and joy. In this book of rhymes and wisdom, we get a glimpse of an emotional state of mind we might not otherwise understand. We get a first-hand view of the conversion from and remorse for a life of sin to the daydreams and night visions that Henley experienced during and after his conversion. These visions made him acutely aware of the struggle between good and evil as demonic forces battled for the possession of his soul. This awareness helped him not only prepare for the battle but claim victory over it. This poetic look at a life of a sinner once saved is a look at faith and hope at the end of the road of despair. It's not only written for those who suffer from similar addictions, it's also written to give hope and advice to friends and relatives who feel helpless as they watch their loved ones losing the battle for their souls—if only for a season.

The book includes many regions, tribes and ages of people, and in some ways even some of the more negative aspects of his photographs are invaluable because they informed much of the mainstream American (worldwide, really) mythology that surrounds First Nations peoples of North America. The photos are somewhere between documentary and romanticism. Where he could have taken straight documentary photos of poverty and tattered Western/white clothing, he instead staged warrior meetings on horseback and the like.
