## *Weaponeering: Conventional Weapon System Effectiveness*

The primary objective of Weaponeering, Third Edition is to assist those engaged in assessing the effects of conventional weapons to understand the components, limitations and techniques needed to perform that assessment. The intent is to explain the underlying methodologies behind various weaponeering tools rather than how to use the tools themselves.

Weaponeering is the field of designing an attack with weapons. It is a portmanteau of weapon and engineering. The term should not be confused with weapons engineering, which is the actual engineering design and development of weapon systems. The United States Department of Defense defines the term as the process of determining the quantity of a specific type of lethal or nonlethal weapons required to achieve a specific level of damage to a given target, considering target vulnerability ...
