Thousands of Protestant churches are perplexed by plateaued or declining attendance, while other congregations nearby thrive. Is there a way for them to combine forces, drawing on both their strengths, in ways that also increase their missional impact? In *Better Together, Expanded and Updated: Making Church Mergers Work*, church merger consultant Jim Tomberlin and award-winning writer Warren Bird make the case that mergers today work best not with two struggling churches but with a vital, momentum-filled lead church partnering with a joining church. This much-needed resource describes the range of mergers for strong, stable, stuck, and struggling churches. No matter what type of merger a church may be considering, the authors address key questions about the process: How can a merger help a church go forward? How will a merger process unfold? Where can a declining church find another congregation to join? What are the pitfalls that both pastor and congregation should avoid? How can "better together" lead to more, rather than fewer, life-giving, high-impact, reproducing churches? They provide a complete, practical, hands-on guide for church leaders of both struggling and vibrant churches, so they can understand the issues, develop strategies, and execute mergers for church expansion and renewal--ultimately, so they can reinvigorate declining churches and give them a "second life." No matter what your motivation for merging your church with another--to

We are currently at a strategic cultural intersection with relationships between women and men eroding. And it seems no one knows what to do. While it is good for women to expose their pain, what often happens is that they immediately blame the person at the other end of it, which sets up a never-ending cycle of accusations, denial, avoidance, and ultimately devastation for everyone involved. This moment of discovery should not signal the end but instead become an opportunity to create a different world where men and women are better together. Better Together is a beacon of hope in a challenging storm. It's where thoughts can be rechanneled and hope rekindled as author Danielle Strickland offers steps toward a real and workable solution. Her premise is that two things are needed for change: 1) imagine a better world, and 2) understand oppression. Understanding how oppression works is an important part of undoing it. Danielle says, "I refuse to believe that all men are bad. I also refuse to believe that all women are victims. I don't want to be just hopeful, I want to be strategically hopeful. I want to work toward a better world with a
