World Geography and Cultures delivers what teachers want: a geography program with relevance - why geography is important and how it relates to their students. This program offers consistent organization of physical geography, cultural geography, and case studies about living in the region that helps students understand the similarities and differences among regions giving them context in which to understand current world events.

World Geography and Cultures, Student Edition

World cultures and geography is the study of physical and human geography. A world cultures curriculum is typically organized by region and allows students to explore global cultures as they analyze populations, settlement patterns, and how these affect the physical environment. A world cultures class will also give students the opportunity to analyze and compare various factors such as development, systems of government, and standards of living in different parts of the world including the U.S.
